## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/23/2009 has been entered.

### ***Status of the Claims***

Claims 1 and 5-11 have been amended. The amendments do not change the scope of the claims. Claims 1 and 5-11 remain for examination.

### ***Status of the Previous Rejections***

The previous objection of claims 1, 5, 6, 10, and 11 under informalities has been withdrawn in view of the amendment/remarks filed on 1/21/2009.

The previous rejection of claims 1 and 7-10 under 35 U.S.C. 112, second paragraph has been withdrawn in view of the amendment/remarks filed on 1/21/2009.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 5-8, 10, and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Funk et al (US 3,807,986, thereafter US'986) in view of Guillot et al (US 6,228,137, thereafter US'137).

US'986 in view of US'137 is applied to the claims 1, 5-8, 10, and 11 for the same reason as stated in the previous rejection dated 9/15/2008.

Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over US'986 in view of US'137, and further in view of Masucci et al (EP 0655508 A1, thereafter, EP'508).

US'986 in view of US'137 and further in view of EP'508 is applied to the claim 9 for the same reason as stated in the previous rejection dated 9/15/2008.

### ***Response to Arguments***

Applicant's arguments filed 1/21/2009 have been fully considered but they are not persuasive. In the Applicants' arguments/remarks marked 1/21/2009, the applicants argue that the combination of Guillot et al (US 6228137) and Funk et al (US 3807986) does not teach introducing preforms having a density adjusted by pressure and a type and quantity of an added iron carrier. In response, the Examiner disagrees with the Applicants' argument because Funk et al clearly teach the briquette formulations are 80-92 percent metallic iron (Abstract ) for desired bulk density of the briquette (Table 1-4 and Col. 5, line 3 to Col.8, line 7). Funk et al further teach: forming rollers are applied to produce the pressed briquettes (Col.9, lines 27-47). Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to adjust the density of the preform by pressure and/or adding iron carrier as taught by Funk et al in order to obtain briquettes with desired size, shape and density (Col.9, lines 27-47).

### ***Conclusion***

This is a RCE of applicant's earlier Application No. 11/071,469. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
